PROFESSIONAL SUMMARY

Junior full-stack developer with practical experience building web applications through full-stack development training, personal projects and collaborative software projects. Strong foundations in JavaScript, HTML, CSS, Vue.js, Node.js, Express.js and SQL, with hands-on experience building REST APIs, working with relational databases and using Git/GitHub in team workflows. Comfortable learning unfamiliar technologies and applying structured problem-solving to real development tasks. Seeking to grow into a production software engineering environment with strong code review, mentorship and modern development practices.

TECHNICAL SKILLS

Languages & Web: JavaScript (ES6+), HTML5, CSS3, PHP, Python
Frontend: Vue.js, Bootstrap
Backend: Node.js, Express.js, REST APIs, asynchronous programming
Databases: MySQL, relational database design, SQL

PROJECTS

HRflow - HR Management System | GitHub | Live Demo

Full-stack HR management application developed as part of a collaborative software project. Worked across frontend and backend functionality using JavaScript, Node.js, Express.js and MySQL. Built and integrated REST API endpoints, worked with relational database structures and contributed to features including employee management and dashboard functionality. Used Git-based team workflows to coordinate development and troubleshoot integration issues.

Pawtopia - Pet Care Booking Platform | GitHub | Live Demo

Team project built with Vue.js, Bootstrap, HTML and CSS as part of a Startup Launch Challenge. Served as project manager and frontend developer for a team of six. Translated requirements and design concepts into responsive interfaces, coordinated contributors and maintained consistency across the application's structure and user flows. Deployed the completed project through GitHub Pages.

EDUCATION

Fullstack Web Development Program, Life Choices Academy, Cape Town - Apr–Sept 2026

Completed: Python, HTML/CSS/JavaScript, Vue.js, Bootstrap, MySQL, Node.js, Express.js, PHP.

National Senior Certificate (Matric), Belgravia High School - 2020

WORK EXPERIENCE

Bookseller (Seasonal), Bargain Books - Dec 2025

- Provided personalised book recommendations and assisted customers with product location.
- Processed sales transactions efficiently using POS systems.
- Maintained organised shelves and supported visual merchandising.
- Assisted with setting up and rearranging promotional displays during peak holiday periods.

Admin & Marketing Assistant, Foshun Group (Shireen Onia) - Nov 2024–Oct 2025

- Consolidated data from multiple sources into structured Excel spreadsheets, improving accessibility and accuracy of business information.
- Developed Standard Operating Procedures (SOPs) to support staff training and operational consistency.
- Produced photo and video content for property listings and personal brand marketing campaigns.
- Designed branded visuals and motivational content for social media platforms.
- Organised digital documents and supported general administrative operations.

Warehouse Assistant, Bidvest Steiner - Jun–Oct 2024

- Picked, prepared, and staged stock for multiple delivery routes, ensuring accurate and timely fulfilment.
- Sorted and quality-checked returned or faulty equipment, supporting inventory control and reporting.
- Maintained warehouse organisation and cleanliness according to safety and operational standards.
- Assisted with delivery operations and logistics coordination when required.

Educator's Assistant, Wingfield Primary School - Feb–Dec 2023

- Supported classroom operations, learner coordination, and daily routines to ensure smooth teaching flow.
- Assisted with marking, reading assessments, and learner progress tracking.
- Prepared bulk printing, copying, and event materials for staff and school events.
- Set up laptops and projectors for award ceremonies and educational events.
- Coordinated PE lessons across multiple grades, supporting staff in class management.
